

NP Steering group report to Parish Council 3rd March 2014

The following was reported verbally to the parish council meeting by A D Clements:

Steering Group Membership. Parish councillors were reminded that at a previous parish council meeting it was agreed that NP steering group membership needs to be approved by the parish council. Allan Clements informed the PC that Mary Walsh wished to join the steering group and had asked Mary to make a proposal to the next parish council meeting.

Designated area status. The steering group when taking into account the feedback from the public meetings held in each of the wards is proposing that the designated area should include the wards of Gisburn Forest and Bolton by Bowland but exclude the ward of Sawley.

The steering group also discussed the possibility of communicating further with Sawley residents and this will be discussed at the PC meeting.
